Subject: Microsoft Settlement

DOJ,

Please settle Microsoft case. I cannot see any help of consumers and technical innovation in this endless lawsuit. All lawsuit did is try to help Microsoft competitors but using the name of consumers. Actually AOL and Sun behavior are poorer and uglier than Microsoft. The technical focus is change in this three years lawsuit. The program platform is moving from OS to Browser, and then to Network. Nobody can keep the edge without innovation in such dynamic market. Why waste tax payers money to help crying loser and punish one time winner?

Please settle!

Xingren Ying
